

ABC Technologies

Company Policy Document

Version 3.2 | June 2026

1. Company Introduction

ABC Technologies is a leading provider of cloud-based business management software, headquartered in Austin, Texas, USA, with regional offices in London, Singapore, and Toronto. Founded in 2011, ABC Technologies serves over 12,000 businesses across 45 countries, ranging from independent consultants to Fortune 500 enterprises.

Our flagship product, **ABCCloud Suite**, unifies project management, CRM, HR, accounting, and analytics into a single, secure, scalable platform. We are committed to transparency, customer success, and responsible data stewardship.

2. Customer Support Policy

ABC Technologies is committed to providing timely, professional, and empathetic support to all customers. Every support interaction is governed by the following principles:

- Customers are treated with respect at all times.
- All support requests receive a written acknowledgement within the SLA window.
- Support agents are authorised to provide refunds up to USD 200 without managerial approval.
- Escalation paths are clearly communicated when first-level agents cannot resolve an issue.

3. Service Level Agreement (SLA)

The following response and resolution times apply to all paid subscription plans. Times are measured in business hours unless otherwise stated.

Priority	First Response	Target Resolution	Applies To
Critical (P1)	1 hour	4 hours	System outage, data loss
High (P2)	4 hours	1 business day	Core feature failure
Medium (P3)	8 hours	3 business days	Non-critical feature issue
Low (P4)	1 business day	7 business days	General enquiries

NOTE: SLA timers are paused while awaiting a response from the customer.

4. Business Hours

ABC Technologies operates support across multiple time zones:

Region	Hours (Local Time)	Days
Americas (Austin, TX)	08:00 – 20:00 CST	Monday – Friday
EMEA (London, UK)	08:00 – 18:00 GMT	Monday – Friday
APAC (Singapore)	09:00 – 18:00 SGT	Monday – Friday
Emergency (P1 only)	24 / 7 / 365	All days

NOTE: Public holidays in each region are announced on the ABC Technologies status page at status.abctechnologies.com at least two weeks in advance.

5. Ticket Priority Levels

5.1 Priority 1 – Critical

Complete loss of service for production workloads; data loss or corruption; security breach. Example: ABCCloud Suite is inaccessible for all users in a tenant.

5.2 Priority 2 – High

A core product feature is unavailable or severely degraded with no viable workaround. Example: Invoices cannot be generated but all other modules work.

5.3 Priority 3 – Medium

A non-critical feature is impaired, or a workaround exists. Example: PDF export produces incorrect page margins.

5.4 Priority 4 – Low

General how-to questions, feature requests, cosmetic issues, and feedback. Example: Customer asks how to configure email notifications.

6. Refund Policy

ABC Technologies believes in fair and straightforward refunds. Customers who are dissatisfied with our service may request a refund under the conditions described below.

7. Refund Eligibility

A refund may be granted under any of the following circumstances:

- The customer cancels within **14 days** of the initial subscription purchase (cooling-off period).
- A confirmed platform outage exceeding **4 consecutive hours** occurred during the billing period.
- Duplicate charges were applied due to a billing system error.
- A feature listed on the pricing page at the time of purchase has been permanently removed without an equivalent replacement.

Refunds are **not** issued for:

- Partial-month usage after cancellation beyond the cooling-off period.
- Fees associated with add-on services already delivered (e.g., professional onboarding sessions).
- Situations where the customer's own infrastructure or third-party integrations caused the issue.

8. Refund Processing Timeline

Once a refund request is approved, the following timelines apply:

Payment Method	Processing Time
Credit / Debit Card	5–10 business days
Bank Transfer (ACH / SEPA)	7–14 business days
PayPal	3–5 business days
Account Credit	Immediate (within 24 hours)

NOTE: Customers may opt to receive the refund as account credit, which can be applied to future invoices and is processed faster than a financial refund.

9. Subscription Cancellation Policy

Customers may cancel their subscription at any time through the Account Settings panel or by contacting billing support. The following terms apply:

- Monthly subscribers: Cancellation takes effect at the end of the current billing month.
- Annual subscribers: Cancellation takes effect at the end of the current annual period.
- No pro-rated refunds are issued beyond the 14-day cooling-off period unless an SLA breach occurred.
- Data export is available for 30 days post-cancellation. After 30 days, all data is permanently deleted.

WARNING: To avoid data loss, customers are strongly encouraged to export their data before the subscription end date.

10. Account Closure Policy

An account is permanently closed when:

- A customer submits a verified account closure request.
- A subscription lapses with no payment received for more than 60 days.
- The account is found to violate ABC Technologies' Terms of Service.

Upon closure: all user data is deleted within 90 days, invoices and billing records are retained for 7 years in compliance with financial regulations, and the account email address cannot be reused for 12 months.

11. Identity Verification Process

To protect customer accounts, ABC Technologies requires identity verification for the following actions: account recovery, plan upgrades above USD 5,000/year, data export requests, and account closure.

Accepted verification methods:

- Government-issued photo ID (passport, national ID card, or driver's licence).
- Matching the registered email address with a verification link.
- One-time passcode sent to the registered mobile number.
- Video call verification for enterprise accounts upon request.

12. Compensation Requests

Customers affected by SLA breaches may submit a compensation request within **30 days** of the incident. Compensation is issued as account credit calculated as:

- Outage 4–8 hours: 10% credit of the current month's subscription fee.
- Outage 8–24 hours: 25% credit.
- Outage exceeding 24 hours: 50% credit.
- Three or more P1 incidents within a calendar month: One free month of service.

13. Escalation to Management

If a customer is dissatisfied with the resolution provided by the first-level support team, they may request escalation to a Senior Support Engineer or Account Manager. Escalation criteria include:

- Issue unresolved beyond the SLA window.
- Disagreement with a refund or compensation decision.
- Repeated recurrence of the same technical problem.

To escalate: reply to the open ticket and add the tag **[ESCALATE]**, or call +1-800-222-4567 and select option 3.

14. Customer Responsibilities

Customers are expected to:

- Maintain accurate account and billing information.
- Keep login credentials confidential and enable Two-Factor Authentication (2FA).

- Report suspected security incidents to security@abctechnologies.com within 24 hours.
- Use the platform in compliance with applicable laws and the ABC Technologies Terms of Service.
- Ensure that integrations and API usage comply with rate limits and acceptable-use guidelines.

15. Privacy Policy

ABC Technologies is committed to protecting customer privacy in accordance with the General Data Protection Regulation (GDPR), the California Consumer Privacy Act (CCPA), and all other applicable data protection legislation.

15.1 Data We Collect

- Account information: name, email address, phone number, company name.
- Billing information: payment method tokens (not raw card numbers), billing address.
- Usage data: feature interactions, login timestamps, error logs.
- Support data: ticket content, chat transcripts, uploaded attachments.

15.2 How We Use Data

- To deliver, maintain, and improve ABCCloud Suite.
- To communicate service updates, invoices, and support responses.
- To comply with legal obligations.

We do **not** sell personal data to third parties.

16. Data Retention Policy

Data retention periods are as follows:

Data Category	Retention Period	Notes
Active account data	Duration of subscription	Deleted 30 days post-cancellation
Support tickets	3 years	Anonymised after 1 year
Billing records	7 years	Legal / tax requirement
Audit logs	1 year	Security monitoring
Backup snapshots	90 days	Rolling retention

17. Security Policy

ABC Technologies employs a defence-in-depth security strategy:

- All data is encrypted at rest using AES-256 and in transit using TLS 1.3.
- Infrastructure is hosted on ISO 27001-certified data centres.
- Annual penetration testing is conducted by an independent third party.
- SOC 2 Type II audit reports are available to enterprise customers under NDA.
- A bug bounty programme is operated via HackerOne.

18. Terms of Service

By accessing ABCCloud Suite, customers agree to the full Terms of Service available at www.abctechnologies.com/terms. Key provisions include:

- Customers retain ownership of their data at all times.

- ABC Technologies is granted a limited licence to process data solely to deliver the service.
- Customers must not use the platform for illegal activities, spam, or to infringe third-party IP.
- Governing law: State of Texas, USA.
- Dispute resolution: binding arbitration under AAA Commercial Rules.
