

ABC Technologies

Frequently Asked Questions (FAQ)

Version 2026.2 | June 2026

This document provides answers to the most frequently asked questions about ABCCloud Suite. Topics are grouped by category for quick reference. For detailed technical procedures, refer to the Technical Manual; for pricing details, see the Pricing Guide.

1. Password Reset

Q: How do I reset my password?

A: Click 'Forgot Password' on the login page, enter your registered email, and follow the link sent to your inbox. The link expires after 60 minutes.

Q: I did not receive the password reset email. What should I do?

A: Check your spam/junk folder. Whitelist noreply@abctechnologies.com. If the email still does not arrive after 10 minutes, contact support@abctechnologies.com.

Q: How many times can I reset my password in a day?

A: You can request up to 5 password reset emails within a 24-hour period. After that, contact support for a manual reset.

Q: What are the password requirements?

A: Passwords must be at least 12 characters and include an uppercase letter, a lowercase letter, a digit, and a special character. They cannot match any of your last 5 passwords.

Q: Can I change my password without a reset link?

A: Yes. While logged in, go to Settings > Security > Change Password and enter your current password followed by the new one.

2. Account Activation

Q: How do I activate my account after signing up?

A: After registration, an activation email is sent to your registered address. Click the 'Activate Account' button within 48 hours to complete setup.

Q: My activation link has expired. How do I get a new one?

A: Visit the login page and click 'Resend Activation Email'. A new link will be sent immediately.

Q: I activated my account but cannot log in. What is wrong?

A: Ensure you are using the same email and password set during activation. If you forgot the password, use the 'Forgot Password' feature.

Q: Can I use a shared/alias email for account registration?

A: We recommend using a personal work email address. Shared aliases are permitted but may cause issues with 2FA and password recovery.

3. Account Deactivation

Q: How do I deactivate a user account within my organisation?

A: Go to Settings > Users, find the user, click the three-dot menu, and select Deactivate. The user will be logged out immediately and cannot log back in.

Q: Does deactivating a user free up a seat?

A: Yes. Deactivated users do not count toward your seat limit and will not be billed.

Q: Can a deactivated user be reactivated?

A: Yes. Go to Settings > Users > Inactive and click Reactivate next to the user's name.

Q: What happens to the data of a deactivated user?

A: All data created by the user (projects, tasks, records) is retained and accessible to other team members. Only login access is removed.

4. Profile Update

Q: How do I update my name or profile photo?

A: Go to your avatar (top-right) > Profile > Edit Profile. Update your name, photo, job title, and time zone, then click Save.

Q: Can I change my registered email address?

A: Yes. Go to Settings > Security > Change Email. You will receive a verification email at the new address. The change takes effect after confirmation.

Q: How do I change the language of the interface?

A: Go to Settings > Preferences > Language and select from the 18 supported languages.

5. Login Problems

Q: I keep seeing 'Invalid Credentials'. What should I do?

A: Double-check your email address and ensure Caps Lock is off. If the issue persists, reset your password using the 'Forgot Password' link.

Q: My account has been locked. How long until it is unlocked?

A: Accounts are locked for 30 minutes after 10 failed login attempts. Alternatively, contact support for immediate unlock.

Q: The login page is not loading. What should I do?

A: Check your internet connection and visit status.abctechnologies.com for outage information. Try clearing your browser cache or using an incognito window.

Q: I get a 'Session Expired' message shortly after logging in.

A: By default, sessions expire after 30 minutes of inactivity. Enterprise admins can extend the session timeout up to 8 hours under Settings > Security > Session Policy.

Q: Can I stay logged in permanently?

A: You can enable 'Remember Me' on the login page, which keeps you logged in for 30 days on that device, provided 2FA is enabled on the account.

6. Billing

Q: When is my billing date?

A: Monthly subscriptions are billed on the same day each month as your initial purchase. Annual subscriptions are billed on the same day each year.

Q: Why was I charged a different amount this month?

A: Common reasons include adding extra user seats mid-cycle (pro-rated), purchasing add-ons, or applicable tax changes. Check the itemised invoice in Settings > Billing.

Q: How do I update my billing address?

A: Go to Settings > Billing > Payment Methods > Edit and update your billing address. Changes apply to the next invoice.

Q: Can I get a refund for an accidental charge?

A: Duplicate or erroneous charges are refunded within 5–10 business days. Contact billing@abctechnologies.com with your invoice number.

Q: What happens if my payment fails?

A: We retry the payment after 3 days, then again after 7 days. If payment fails after three attempts, your account is suspended. You will receive email notifications at each stage.

7. Subscription Plans

Q: Can I switch plans at any time?

A: Yes. Upgrades take effect immediately; you are charged the pro-rated difference. Downgrades take effect at the start of the next billing cycle.

Q: Is there a free plan?

A: ABC Technologies does not offer a permanently free plan, but a full-featured 14-day free trial is available with no credit card required.

Q: What happens to my data if I do not upgrade after the free trial?

A: Your account enters read-only mode. You have 7 days to export your data before it is permanently deleted.

Q: Can I add more users without upgrading my plan?

A: Professional plan customers can add extra users at USD 4 per user per month. Basic plan customers must upgrade to Professional to exceed 5 users.

8. Refunds

Q: Can I get a refund if I cancel within the first two weeks?

A: Yes. A full refund is available if you cancel within 14 days of your initial purchase (the cooling-off period).

Q: How long does a refund take to process?

A: Credit/debit card refunds take 5–10 business days; PayPal 3–5 days; bank transfers 7–14 days. Account credits are applied within 24 hours.

Q: I cancelled outside the 14-day window. Can I still get a refund?

A: Refunds outside the cooling-off period are granted only in cases of platform outages exceeding 4 hours, billing errors, or removal of purchased features.

Q: How do I submit a refund request?

A: Email billing@abctechologies.com with your account email, invoice number, and reason for the refund request. A response is provided within 2 business days.

9. File Upload Issues

Q: What is the maximum file size I can upload?

A: The per-file size limit is 250 MB on Basic and Professional plans, and 2 GB on the Enterprise plan.

Q: What file types are supported?

A: Supported types include PDF, DOCX, XLSX, PPTX, TXT, CSV, JPEG, PNG, GIF, WEBP, SVG, TIFF, ZIP, and TAR.GZ. Executable files (.exe, .sh, .bat) are not permitted for security reasons.

Q: Why does my upload fail with 'ERR_STORAGE_FULL'?

A: Your organisation's storage quota is exhausted. Delete unused files or purchase additional storage from Settings > Billing > Storage Add-ons.

Q: Can I upload an entire folder at once?

A: Yes. Drag and drop a folder into the Files module. The folder structure is preserved. Individual files within the folder are subject to the per-file size limit.

10. Installation

Q: Do I need to install software to use ABCCloud Suite?

A: No. ABCCloud Suite is fully accessible via any supported web browser. The optional desktop companion agent is only required for offline sync and local file integration.

Q: How do I install the desktop agent on Windows?

A: Download ABCCloudSetup.exe from app.abctechologies.com/downloads and run it as Administrator. The installation takes 2–5 minutes.

Q: Can I deploy the desktop agent silently across my organisation?

A: Yes. Use the MSI package with the /quiet flag for silent installation via Group Policy or MDM tools such as Microsoft Intune or Jamf.

11. Configuration

Q: How do I connect ABCCloud Suite to Google Workspace?

A: Go to Settings > Integrations > Google Workspace and click Connect. Sign in with your Google admin account and grant the required permissions.

Q: Can I customise the email notification templates?

A: Custom email templates are available on the Enterprise plan. Contact your Customer Success Manager to request customisation.

Q: How do I configure SSO for my organisation?

A: SSO via SAML 2.0 is available on Enterprise. Go to Settings > Security > SSO and provide your Identity Provider (IdP) metadata URL.

12. Browser Compatibility

Q: Which browsers are supported?

A: ABCCloud Suite supports Google Chrome 115+, Mozilla Firefox 118+, Microsoft Edge 115+, and Safari 16+. We recommend Chrome for the best experience.

Q: Does ABCCloud Suite work on Internet Explorer?

A: No. Internet Explorer is no longer supported. Please upgrade to a modern browser.

Q: Why does the application look broken in my browser?

A: This may be caused by a browser extension or an outdated browser version. Try accessing the application in Incognito mode to isolate the issue.

13. Security

Q: How is my data encrypted?

A: All data is encrypted at rest using AES-256 and in transit using TLS 1.3. Encryption keys are managed via a dedicated key management service.

Q: Does ABC Technologies have SOC 2 certification?

A: Yes. ABC Technologies is SOC 2 Type II certified. Audit reports are available to Enterprise customers under NDA. Contact sales@abctechnologies.com to request a copy.

Q: How do I report a security vulnerability?

A: Submit vulnerabilities via our HackerOne bug bounty programme at hackerone.com/abctechnologies or email security@abctechnologies.com for critical issues.

Q: Can I restrict login to specific IP addresses?

A: IP allowlisting is available on the Enterprise plan. Configure allowed IP ranges under Settings > Security > IP Allowlist.

14. Privacy

Q: Does ABC Technologies sell my data?

A: No. ABC Technologies does not sell personal data to third parties. Data is used solely to deliver and improve ABCCloud Suite.

Q: How do I submit a GDPR data subject access request?

A: Email privacy@abctechnologies.com with the subject line 'DSAR Request' from your registered email address. We will respond within 30 days as required by GDPR.

Q: Can I request deletion of my personal data?

A: Yes. You have the right to erasure under GDPR. Submit a deletion request to privacy@abctechnologies.com. Note that billing records must be retained for 7 years by law.

15. Contact Support

Q: What are the ways to contact ABC Technologies support?

A: You can reach us via the support portal (support.abctechnologies.com), email (support@abctechnologies.com), live chat (in-app, Professional and Enterprise), and phone (Enterprise 24/7: +1-800-222-4567 option 2).

Q: What information should I provide when contacting support?

A: Please provide: your account email, organisation name, error message and code, steps to reproduce the issue, browser/OS version, and screenshots if possible.

Q: How do I check the status of my support ticket?

A: Log in to the support portal at support.abctechnologies.com and navigate to My Tickets to view updates and add comments.

16. Payment Methods

Q: Which payment methods are accepted?

A: We accept Visa, Mastercard, American Express, Discover, PayPal, ACH bank transfer (USA), SEPA direct debit (EU), wire transfer (Enterprise), and purchase orders (Enterprise).

Q: Can I pay by invoice / purchase order?

A: Purchase orders and invoice-based billing are available on the Enterprise plan. Contact billing@abctechnologies.com to set up invoice billing.

Q: Is it safe to enter my card details?

A: Yes. Card details are processed by our PCI-DSS Level 1 certified payment processor (Stripe). ABC Technologies never stores raw card numbers.

17. Invoices

Q: Where can I download my invoices?

A: Invoices are available in Settings > Billing > Invoice History. Click any invoice to download the PDF.

Q: Can I add a VAT/GST number to my invoices?

A: Yes. Go to Settings > Billing > Tax Information and enter your VAT/GST registration number. It will appear on all future invoices and may qualify you for reverse-charge treatment.

Q: Can I get invoices sent to an accounting email address?

A: Yes. Go to Settings > Billing > Billing Email and enter the address. This can differ from your account login email.

18. API Access

Q: Which plans include API access?

A: API access is included in the Professional plan (10,000 calls/day) and Enterprise plan (custom limits). Basic plan customers do not have API access.

Q: How do I generate an API key?

A: Go to Settings > Integrations > API Keys > Generate New Key. Give the key a name, set expiry (optional), and click Create.

Q: What happens if I exceed my API rate limit?

A: Requests beyond the rate limit return HTTP 429 (Too Many Requests). On the Professional plan, overage calls are billed at USD 0.002 per call.

Q: Where can I find the API documentation?

A: Full API documentation including endpoints, authentication, and code examples is available at <https://developers.abctechnologies.com>.

19. Notifications

Q: How do I turn off email notifications?

A: Go to Settings > Notifications and toggle off the notification types you do not want. You can disable all non-essential notifications from this page.

Q: Can I receive notifications via Slack?

A: Yes. Connect Slack under Settings > Integrations > Slack and configure which events trigger Slack messages.

Q: Why am I not receiving notifications?

A: Check Settings > Notifications to verify notifications are enabled. Also check your spam folder and whitelist noreply@abctechnologies.com.

20. Two-Factor Authentication (2FA)

Q: How do I enable Two-Factor Authentication?

A: Go to Settings > Security > Two-Factor Authentication and click Enable. Scan the QR code with an authenticator app (Google Authenticator, Authy, Microsoft Authenticator).

Q: I lost access to my authenticator app. How do I log in?

A: Use one of the 10 backup codes generated when you set up 2FA. If you do not have these, contact support@abctechnologies.com for identity-verified account recovery.

Q: Can I enforce 2FA for all users in my organisation?

A: Yes. Administrators can mandate 2FA for all users from Settings > Security > Organisation 2FA Policy > Require 2FA.

Q: Which authenticator apps are supported?

A: Any TOTP-compatible app is supported, including Google Authenticator, Authy, Microsoft Authenticator, 1Password, Bitwarden, and hardware tokens (FIDO2).

21. Email Verification

Q: Why has my email not been verified?

A: Check your spam folder for an email from noreply@abctechnologies.com. If not found, go to the login page and click 'Resend Verification Email'.

Q: Can I change my email before verifying it?

A: No. You must first verify your current email before changing it. If you registered with the wrong email, contact support to update it manually.

22. Mobile App

Q: Is there a mobile app for ABCCloud Suite?

A: Yes. The ABCCloud mobile app is available for iOS (App Store, requires iOS 16+) and Android (Google Play, requires Android 10+).

Q: Does the mobile app support all features?

A: The mobile app covers core CRM, project tracking, task management, notifications, and file viewing. Advanced reporting and admin settings are available via the web browser.

Q: Can I use the mobile app offline?

A: The mobile app supports limited offline access for tasks and notes. Changes sync automatically when an internet connection is restored.

23. Integrations

Q: Which third-party tools does ABCCloud Suite integrate with?

A: Native integrations include Google Workspace, Microsoft 365, Slack, Microsoft Teams, QuickBooks, Xero, Zapier, Make, Stripe, and Salesforce. See the Integrations page in your account for the full list.

Q: How do I disconnect an integration?

A: Go to Settings > Integrations, find the connected integration, and click Disconnect. Existing data already imported is retained.

Q: Can I build a custom integration?

A: Yes. Use the ABCCloud REST API (documentation at developers.abctechnologies.com) and webhooks to build custom integrations. Professional and Enterprise plans include API access.

24. General Questions

Q: In which countries is ABCCloud Suite available?

A: ABCCloud Suite is available worldwide. Payments are processed in USD. VAT/GST is added for customers in applicable jurisdictions.

Q: What languages does ABCCloud Suite support?

A: The interface is available in 18 languages including English, Spanish, French, German, Portuguese, Arabic, Japanese, Simplified Chinese, Hindi, and more.

Q: How do I close my ABC Technologies account permanently?

A: Go to Settings > Account > Close Account. You will be asked to confirm and export your data. Account closure is irreversible after 30 days. Alternatively, contact support@abctechnologies.com.

Q: Does ABC Technologies offer a partner or reseller programme?

A: Yes. The ABC Technologies Partner Programme offers reseller margins, co-marketing materials, and technical training. Apply at www.abctechnologies.com/partners.

Q: How do I stay informed about new features and updates?

A: Subscribe to the product changelog at changelog.abctechnologies.com, follow our blog at blog.abctechnologies.com, or enable release notifications in Settings > Notifications.

Q: Where can I find the Terms of Service and Privacy Policy?

A: Both documents are available at www.abctechnologies.com/terms and www.abctechnologies.com/privacy respectively.
